Hi Mike,  
We've been awarded the speed study along LINC and RHVP and tomorrow is our kick-off meeting with the City. Could you please let me when would be earliest time for your staff to initiate the data collection?

Thanks,

Hi Reza,

Attached, please find our Quotation to conduct Speed study along LINC and RHVP in Hamilton. We will use Nu-metric counters for this kind of study, one counter per each lane of traffic.

Traffic Control with Crush Truck is required also, as per Quotation.

If you have any questions regarding this Quotation please let me know.

Regards,

**Subject:** Quote for a speed study on Linc & RHVP

**Importance:** High

Hello Rob,

As discussed last week, City of Hamilton is aiming to conduct a speed study along Red Hill Valley and Lincoln Alexander Parkways. The proposed locations of the study can be found in the attachment. I'm looking for a week of 24-hour data collection on these locations for all lanes of travel. I would appreciate if you can send me your quote by tomorrow.

Thanks again.

Reza Omrani, P.Eng.
