I don't know what the media are fishing for but certainly, MTO is not aware of any issues.

Hi Becca,

Thank you for the email. I will talk to the City. There are short deeps and surface cracking. It is an interesting question whether the cracking is related to asphalt cement. RHVP was paved in 2007 and the asphalt cement came from Bitumar.

Regards,  
Ludomir

Hi Ludomir,  
I received a strange media request about performance of the Red Hill Valley Parkway. Do you keep in touch with Hamilton on that project? Are you aware of any performance issues? Perhaps there is an asphalt cement cracking issue? I am in the dark on this one.  
Becca
