Edward called and asked about availability, and he is already aware that I'm away. Let me think about surrogate from here and I'll be in touch.

Nice, enjoy. I will pass that on to Nicole. I may have to pinch hit for you at the Council meeting unless there is someone else at CIMA you feel could take your place (I could coach them on addressing Council (everything needs to be dumbed down as if they are children!). Please advise.

Thanks David, we will be reviewing immediately and preparing a succinct response. As to the Feb 13th Council date, unfortunately no, I am unable to attend. I will be out of the country from Feb 6th to Feb 22 for an extended trip to Korea, Thailand and Cambodia.

Subject: Hamilton re RHVP Council Issues

Importance: High

Hi Brian:

Further to our conversation today with Nicole Auty and Ron Szabo, I am providing you with the following two reports:

- 1) Tradewind friction report dated November 2013;
- 2) Golder Evaluation of Pavement Surface and Aggregates, RHVE, dated December 2017.

Once you have reviewed the above can you please advise me of the following:

- 1) Given your previous reports and the various components that contribute to road safety, can you please advise if any changes are needed to the recommendations in your recent (2018/19) reports to the City of Hamilton;
- 2) Are there any additional safety measures you would recommend the COH implement between now and when the road is resurfaced in late Spring 2019;
- 3) Should the RHVP be closed to vehicular traffic in whole or in part;

As we discussed this is a very sensitive and urgent matter to the City, and I apologize for the short time frame that we are asking you to respond within. Please advise when you might be able to give a response to these questions. I would also ask that your report be as succinct and direct in your responses to the foregoing questions as possible.

Can you also advise if you could be available to speak to Council if needed on February 13th at the council meeting, commencing at 5pm, given your non-availability on February 6th?

Yours truly,
David Boghosian
